THE *Best* INVESTMENT

Extend the life of your Cat machine.

A Cat machine is the best investment in productivity you can make and there is a way to improve it - with a **Cat Certified Rebuild**. When most competitive models would require replacement, Cat equipment can be rebuilt to deliver a cost-effective "second life." Cat machines are **"built to be rebuilt."**

The extensive **Cat Certified Rebuild** program incorporates the very latest critical engineering updates into your machine at a fraction of the cost of buying new. After a thorough evaluation, including more than 350 tests, and inspections, and the automatic replacement of approximately 7,000 parts, you get a like new machine and warranty. As you'd expect, our quality standards are just as stringent the second time around - because only trained dealer service professionals and only Genuine Cat Parts are used to complete a **Cat Certified Rebuild**.
